SEcurity Awareness and Response to Concealed Hazards

course

In a field where a mistake can cost lives, preparation and prevention are the keys to safety. Led by highly experienced operators and trainers, our **SEARCH** seminar is designed to educate first responders on the basics of danger awareness and protection. Skills instructed include recognition and safe response to threats incorporating IEDs, render safe, search, post blast, weapons analysis, homemade explosives and bomb network analysis and disruption. Also available is the two-day course, which interfaces the techniques detailed in the conference setting with simulations, providing responders a firsthand look at these critical situations.

Raven International Security Consulting (RISC) Management is a veteran-owned firm created with the vision to educate against the emerging security threats in today's environment. Our consultants and trainers offer extensive global field experience in both military and civilian sectors. RISC offers unique curriculum customized to adhere to jurisdictional limitations without compromising expert training and safety. At RISC, we understand that knowledge is critical.
